

# Segmental Pavement Jointing Sand

ASTM-C144

WASHED · SCREENED · DRIED

An important step of the paver installation process is the application of the proper jointing sand. **SEK-Surebond's Segmental Pavement Jointing Sand** will properly complete the interlocking of the segmental pavers because it is coarse, angular and meets ASTM-C144 specifications. This type of sand is more stable in the paver joints and has the optimal gradation to ensure long term performance of the pavement system.

## SEK-Surebond Segmental Pavement Jointing Sand

- Angular Jointing Sand Meets ASTM-C144 Standards
- Recommended for Joints Up to 3/4"
- Washed, Screened & Dried
- Minimal Dust
- Convenient 50 lb Bags
- Available in Tan & Gray
- Ideal for Use with **Surebond Joint Stabilizing Sealers**
