

## LIGHT UP YOUR HARDSCAPE WITH

Walter

Cornelius

# WALLTER and CORNELIUS

## PREMIUM HARDSCAPE LIGHTS

Wallter and Cornelius Hardscape Lights by Kerr Lighting are designed to blend in with your hardscape design. They provide an unrivaled combination of energy efficiency, durability, and brilliant light quality that you've come to expect from Kerr Lighting. Featuring the latest developments in LED technology, these lights offer an evenly-distributed warm-white color, long life for low maintenance costs, and continuous performance under all weather conditions.

The sleek, compact fixtures minimize their impact on your hardscape design. Made from a durable polycarbonate plastic, they will not corrode or weather like other materials. Because the fixtures are seamless, the light beam is controlled with no seepage around the edges.

**Use Wallter and Cornelius as your solution for a variety of outdoor settings including under wall caps, pillar caps, steps, and outside pillar corners.**

Wallter — use under wall caps, pillar caps, and steps

Cornelius — use on outside corners underneath pillar caps
