- Underwater: Fountains, Pools, Ponds

StarLites

Solar LED Lights

Illuminate Outdoor Areas with Kerr Lighting

Top Quality, Maintenance Free Lighting Solution with No Extra Installation or Operating Costs

- Self-contained light with no exterior wiring
- Simple to install without an electrician
- No wiring, no trenching, no timer, no transformer

Extremely Durable, Contractor Grade Design for Residential & Commercial Use

- Stainless steel light fixture with UV resistant polycarbonate lens
- Engineered to withstand light vehicular traffic
- Added slip resistant surface keeps pedestrians safe
- 100% waterproof with an IP68 rating

Long-Life LED Light Source

- Energy efficient lighting to accent hardscapes and outdoor areas
- LED light technology for maximum in-use life

Double Layer Super Capacitor Stores Solar Energy

- Capacitor stores solar energy to power light - no battery needed
- Unlike lithium batteries, capacitor will never need to be replaced
- Reaches full charge in 3-5 hours under full sunlight
- 12 hours of working time after full charge
- Works in extreme temperatures -40°F to 140°F (-4°C to 60°C)

Easily Installs into New or Existing Patios, Walkways, Driveways & More!
