SB-Power Sprayer

Information

The SB-Power Sprayer is a completely self contained, cordless sprayer with industrial grade sprayer components and a rugged handcart. The design ensures long term durability and dependability for both residential and commercial project use. The ease of application is sure to reduce labor cost to a fraction of what it would be using a traditional handheld or back pack sprayer.

Dual-Power Source

- Gel Cell Battery
- Built-in Battery Charger with Battery Tender Technology
- Can Be Run Off of 110V Cord as Well
