

SUREBOND'S SB-1300 CHOSEN TO PROTECT PAVERS AT NEVADA STATE VETERANS MEMORIAL

SEK-Surebond is honored to have **SB-1300 Joint Stabilizing Sealer** chosen to protect over 20,000 square feet of pavers at the **Nevada State Veterans Memorial** and donated close to 200 gallons for that purpose. The memorial was built this past year and officially opened to the public Memorial Day weekend.

About the Memorial: The two-acre memorial and park located in Las Vegas, Nevada features 18 larger-than-life statues spanning 200 years of American history, from the Revolutionary War to the Global War on Terror. The national tribute to our veterans was created by the Las Vegas Memorial Foundation and American Shooters, Inc., a veteran operated business in Las Vegas, Nevada.

The memorial was 100 percent privately funded by the generous contributions of businesses and individuals. "Completing this memorial has taken the collective effort from organizations around the country like **SEK-Surebond** who donated a joint stabilizing sealer for the over 20,000 square feet of pavers for this memorial, said Scott Tiano, Executive Director of the Las Vegas Memorial Foundation.

SUREBOND®
