SUREBOND
PROTECTION THAT PAYS

MAINTAIN NEW HARDSCAPES TO KEEP THEM LOOKING BEAUTIFUL FOR YEARS TO COME

Paver, natural stone and concrete hardscapes are a BIG investment that can provide years of beauty and enjoyment if well maintained. Once the hardscape project has been installed, it is the ideal time to protect the surface with a **Surebond Sealer** and begin following a maintenance schedule. **Surebond's Specialty and Multi-Use Cleaners**, designed specifically for hardscapes, make routine maintenance simple and easy.

RESTORE OLDER HARDSCAPES TO MAKE THEM BEAUTIFUL AGAIN

Restore hardscapes with **Surebond's Multi-Use** and **Specialty Cleaners** to make them look like new again, and then protect them with a **Surebond Sealer**.

Regardless if the hardscape is new or has been installed for many years, the surface should be cleaned using cleaners designed for hardscapes to remove any stains and overall dirt prior to sealer application. A properly cleaned surface will look best and provide optimal conditions for sealer adhesion.

SUREBOND
PROTECTION THAT PAYS

JOINT STABILIZING SEALERS

- Ideal for Patios, Walkways & Driveways
- Offer Multiple Benefits: Surface Protection, Joint Sand Stabilization and Enhancement
- Protect Surface from Harsh Elements and Every Day Wear & Tear
- Promote Easier Cleaning & Maintenance
- Contain an Antifungal to Protect Sealer Film from Moss, Mold & Algae
- Flood Coat & Squeegee Application

Surebond Joint Stabilizing Sealers perform multiple tasks at once: stabilize joint sand to prevent sand loss and deter weed growth, provide surface protection from harsh elements and make cleaning easier.

Depending on which joint stabilizing sealer you choose, it can enhance the look of the surface by darkening the surface tone and adding a gloss or sheen. If desired, Surebond Joint Stabilizing Sealers can be used for surface protection and enhancement without joint sand stabilization when the appropriate application instructions are followed.

TWO-PART URETHANE WET LOOK JOINT STABILIZING SEALERS

Offering surface protection and deep enhancement, **Surebond's SurfacePRO Sealers** are proprietary two-part water reducible, clear, aliphatic urethane sealers and joint sand stabilizers. **SurfacePRO Sealers** are specially formulated with an antifungal designed to help inhibit the growth of mold, moss and algae on the sealer film when applied to horizontal or vertical surfaces. **SurfacePRO Sealers** are non-yellowing and will provide a protective layer that is the ultimate in durability to resist mild acid, alkali, chemicals and salt attacks. Optimal results when performing same day cleaning, sanding and sealing can be achieved when following the recommended application process.
