

EZBOND

The EZ Way to Build Stronger!

Polymer Modified • Portland Cement Wet Set for Bonding Pavers

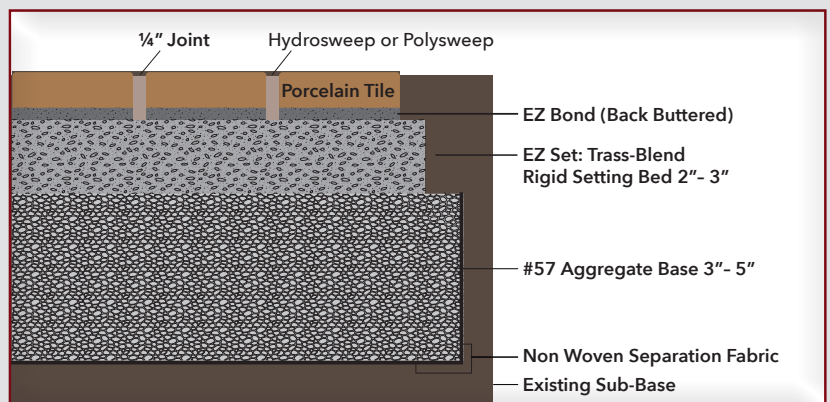

EZ Bond Wet Set is our latest innovation, engineered to provide superior strength and durability for large-format hardscapes. This polymer-modified Portland cement Wet Set is designed to bond paving units to the **EZ Set Trass Setting Bed** or sound concrete, creating a robust and lasting foundation.

When combined with **EZ Set**, **EZ Bond** forms a high-performance system that enhances the longevity and resilience of modern outdoor spaces. Suitable for both residential and light-duty commercial applications, it securely adheres large-format pavers, natural stone, porcelain, and tile to EZ Set or poured-in-place concrete. Ideal for walkways, patios, pool decks, courtyards, and driveways with light-duty residential vehicular traffic.

- Saves Time
- Resists Cracking
- Long Lasting Performance

FEATURES	BENEFITS
Polymer Modified	• Enhanced Performance
Crack Resistant	• Long-Term Durability
Strong, Secure Bond	• Reliable Adhesion
Long-Lasting Results	• Stands the Test of Time
Fast Application	• Saves Time

MAXIMIZES DURABILITY & STRENGTH

Available in 50 lb bags - Made in USA
