LEARN MORE

Introducing ResinScape, a modern pavement alternative that moves beyond concrete and asphalt. Designed for today's design-driven projects, ResinScape blends innovation, beauty, and performance into one seamless solution.

Seamless, Stone-Rich, Resin-Bound Surface
Permeable Performance for Effective Drainage
Reduces Surface Runoff
Eco-Friendly

With its design flexibility, ResinScape transforms **Driveways, Walkways, and Outdoor Spaces** into statement surfaces that are unique, and unmistakably elevated.

RESIDENTIAL & LIGHT COMMERCIAL
DRIVEWAYS • WALKWAYS • PATIOS • POOL SURROUNDS

ResinScape Resin Bound System combines decorative stone with a clear polyurethane binder to create a seamless, hand-troweled surface installed over a properly prepared base. The result is a smooth, stone-rich surface that is both durable and highly permeable, allowing water to drain through the surface, reducing runoff. Designed for a wide range of residential and light commercial applications, **ResinScape** delivers long-term color stability and outstanding resistance to discoloration, weathering, and everyday wear.

FEATURES	BENEFITS
UV Stable Resin Technology	<ul style="list-style-type: none"> • Color stable • Resists yellowing
Low Maintenance, High Aesthetic Appeal	<ul style="list-style-type: none"> • Resists staining from fuel, oil and solvent spills • Reduces weed growth • Maintains a clean, natural appearance
Durable, Long-Lasting Surface	<ul style="list-style-type: none"> • High-strength with excellent durability • Resists degradation from fuel, oil and solvent spills
Optimized Resin Formulation	<ul style="list-style-type: none"> • Easy trowel application and workability • Can be installed in low temperatures
Permeability	<ul style="list-style-type: none"> • Water naturally drains through the system • Environmentally friendly
Versatile Design Capabilities	<ul style="list-style-type: none"> • Wide range of decorative aggregates available • Ability to incorporate design inlays • Suitable for external and internal use • Can be installed in temperatures >40° F
